

SERVICES

JMC Building Inspection Services will provide a careful and thorough inspection from a team of dedicated, experienced professionals. Services we provide include:

- Detailed pre-listing and pre-sale building inspections according to the standards of practice of both CREIA and ASHI®

- Narrative type inspection reports within two working days of inspection

- Residential, commercial, multi-family and business inspections

- Solar Photovoltaic (PV) System Inspections

- Answers to any post-inspection questions

- Inspections for both potential buyers and sellers of real property

- Energy Audits for your home through EnergyCheckup ®

- Building maintenance inspections

- Forensic or defect investigations

- Construction progress inspections

- Specialty inspections by arrangement

- Assistance with construction complaint resolution

We Provide What You Need: Accuracy - Reports that accurately describe property conditions. We don't dramatize or minimize our findings. Service - Our office staff will arrange for an inspector to meet you at the property, generally within a few days of contacting us. We will address your concerns during the inspection and our inspectors will answer any questions you may have later by phone. Clarity - Our reports are easy to read and easy to understand. They provide valuable information, useful to both buyers and sellers. Professionalism - Our 25-to 35-page narrative report is produced in our office and delivered to you via email, fax, or is mailed to you within two-working days. The report also is available to you on-line through a password-protected location on our website. You want to know what is typically included in our home inspections? Please visit our resources section.
